PROFESSIONAL WORK HISTORY

FOUNDER, GOODR HEALTH (FORMERLY SHARED HARVEST) 02/2018 – PRESENT

Software as a Service (SaaS) skills-based volunteer marketplace that facilitates nonclinical and clinical talent matches for nonprofit organizations seeking human capital. The platform was later used to support pandemic relief and named myCovidMD App, machine learning technology used to connect clinicians and community health workers with residents with service needs during the pandemic and offering a student loan reward credit. Revenued \$1.8M. The technology is now an ideal BIPOC talent acquisition and retention HR tool pre-revenue.

CHIEF MEDICAL & INNOVATION OFFICER, SHARED HARVEST FOUNDATION – LOS ANGELES, CA 02/2018 – PRESENT

Executive Director and CMO for the foundation. Developed and oversaw the execution of strategic plan for myCovidMD, Vaxequity & Project #RESUS relief efforts, public telehealth platform development, developed community-based emergency response taskforce, and health equity initiative with partnerships across 140 community-based organizations and churches servicing 13,000+ residents in valued based care model, health navigation, Covid care
